

LASER JOB SHOP

KOVO-PLAZMA s.r.o. Company has been running engineering production oriented to **high-quality metal sheet processing using CNC technology** on state-of-the-art machines TRUMPF since 1999.

WE OFFER:

- ☐ LASER CUTTING
- ☐ PRECISE FOLDING
- ☐ TIG/MIG/MAG WELDING
- ☐ METALWORK
- ☐ PRODUCT SHIPPING
- ☐ SPECTRAL ANALYSIS OF FE AND AL MAT.

The primary interest of our Company is satisfaction of our customers and thus we are trying to continuously improve all offered services. We moved the manufacturing to our own premises and invested in new technical equipment. That is why we can offer wide range of services but our main target is the quality. Therefore we implemented quality management system ISO 9001 which was successfully certified in the year 2007.
